

# SAFETY DATA SHEET

## Additive M30

In accordance with the Standard for Classification and Labeling of Chemical Substance and Safety Data Sheet,  
Article 10 Paragraph 1

### Section 1. Chemical product and company identification

**A. Product name** : Additive M30  
**Product code** : 29184-01

**B. Relevant identified uses of the substance or mixture and uses advised against**

**Identified uses**

Industrial use only.  
Additive

**Uses advised against**

Consumer use.

**C. Manufacturer** : BLASER SWISSLUBE AG  
Winterseistrasse 22  
CH-3415 Hasle-Rüegsau  
Switzerland  
Tel: +41 (0)34 460 01 01  
E-Mail: contact@blaser.com

**Importer/ Distributor** : Blaser Swissslube Korea Inc.  
#1909 T-Tower  
21, Yangji-ro, Gwangmyeong-si, Gyeonggi-do  
Republic of Korea  
14345  
Tel: +82 2 785 7228  
E-Mail: korea@blaser.com

**e-mail address of  
person responsible for  
this SDS** : reach@blaser.com

**Emergency telephone** : +82 2 3479 8401 (7d/24h)

### Section 2. Hazards identification

**A. Hazard classification** : EYE IRRITATION - Category 2A  
AQUATIC HAZARD (LONG-TERM) - Category 3  
This product is classified in accordance with the Industrial Safety and Health Act and  
the Chemical Control Act.

**B. GHS label elements, including precautionary statements**

**Symbol** :

**Signal word** : Warning

**Hazard statements** : H319 - Causes serious eye irritation.  
H412 - Harmful to aquatic life with long lasting effects.

**Precautionary statements**

**Prevention** : P280 - Wear eye or face protection.  
P273 - Avoid release to the environment.

## Section 2. Hazards identification

- Response** : P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
P337 + P313 - If eye irritation persists: Get medical advice or attention.
- Storage** : Not applicable.
- Disposal** : P501 - Dispose of contents and container in accordance with all local, regional, national and international regulations.

**C. Other hazards which do not result in classification** : None known.

## Section 3. Composition/information on ingredients

- Substance/mixture** : Mixture
- Other means of identification** : Not available.

| Ingredient name                                            | Classification                                                                                                                                                                                | Identifiers     | %         |
|------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------|-----------|

### Additional information :

Neutralisation product: Equilibrium of Ionic Pairs according to REACH Annex V, 4.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

- A. Eye contact** : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Continue to rinse for at least 10 minutes. Check for and remove any contact lenses. Get medical attention.
- B. Skin contact** : Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. Wash clothing before reuse. Clean shoes thoroughly before reuse.
- C. Inhalation** : Avoid breathing vapor or mist. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention if adverse health effects persist or are severe. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours. Remove victim to fresh air and keep at rest in a position comfortable for breathing.
- D. Ingestion** : Wash out mouth with water. Remove dentures if any. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention if adverse health effects persist or are severe. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.
- E. Notes to physician** : In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.
- Specific treatments** : No specific treatment.
- Protection of first-aiders** : No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

See toxicological information (Section 11)

## Section 5. Fire-fighting measures

- A. Extinguishing media**
- Suitable extinguishing media** : Use an extinguishing agent suitable for the surrounding fire.
- Unsuitable extinguishing media** : None known.
- B. Specific hazards arising from the chemical** : In a fire or if heated, a pressure increase will occur and the container may burst. This material is harmful to aquatic life with long lasting effects. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain.
- Hazardous thermal decomposition products** : Decomposition products may include the following materials:  
 carbon dioxide  
 carbon monoxide  
 nitrogen oxides  
 phosphorus oxides

## Section 5. Fire-fighting measures

- C. Special protective equipment for fire-fighters** : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.
- Special precautions for fire-fighters** : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

## Section 6. Accidental release measures

- A. Personal precautions, protective equipment and emergency procedures** : No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.
- B. Environmental precautions** : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large quantities.
- C. Methods and materials for containment and cleaning up**
- Small spill** : Stop leak if without risk. Move containers from spill area. Absorb with an inert material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
- Large spill** : Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations.

## Section 7. Handling and storage

- A. Precautions for safe handling**
- Protective measures** : Put on appropriate personal protective equipment (see Section 8). Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Avoid release to the environment. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.
- Advice on general occupational hygiene** : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
- B. Conditions for safe storage, including any incompatibilities** : Store between the following temperatures: 5 to 40°C (41 to 104°F). Shelf life: (minimum) 24 months. Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

## Section 8. Exposure controls/personal protection

### A. Control parameters

#### Occupational exposure limits

None.

#### Biological exposure indices

No exposure indices known.

- B. Appropriate engineering controls** : Good general ventilation should be sufficient to control worker exposure to airborne contaminants.
- Environmental exposure controls** : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

### C. Personal protective equipment

- Respiratory protection** : A respirator is not needed under normal and intended conditions of product use. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators.
- Eye protection** : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles.
- Hand protection** : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated. Wear suitable gloves tested to EN374. Nitrile gloves. thickness 0.3 mm (minimum) .
- Body protection** : Personal protective equipment for the body should be selected based on the task being performed and the risks involved before handling this product.
- Hygiene measures** : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

## Section 9. Physical and chemical properties

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

### A. Appearance

**Physical state** : Liquid.

**Color** : Yellow.

**B. Odor** : Characteristic.

**C. Odor threshold** : Not available.

**D. pH** : 9 [Conc. (% w/w): 1%]

**E. Melting/freezing point** : Not available.

**Pour point** : -45°C (-49°F)

**F. Boiling point or initial boiling point and boiling range** : Not available.

**G. Flash point** : Open cup: Not applicable.

## Section 10. Stability and reactivity

|                                            |                                                                                                        |
|--------------------------------------------|--------------------------------------------------------------------------------------------------------|
| <b>A. Chemical stability</b>               | : Shelf life: (minimum) 24 months.                                                                     |
| <b>Possibility of hazardous reactions</b>  | : Under normal conditions of storage and use, hazardous reactions will not occur.                      |
| <b>B. Conditions to avoid</b>              | : No specific data.                                                                                    |
| <b>C. Incompatible materials</b>           | : No specific data.                                                                                    |
| <b>D. Hazardous decomposition products</b> | : Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

## Section 11. Toxicological information

### A. Information on the likely routes of exposure

Not available.

### Potential acute health effects

|                     |                                                     |
|---------------------|-----------------------------------------------------|
| <b>Inhalation</b>   | : No known significant effects or critical hazards. |
| <b>Ingestion</b>    | : No known significant effects or critical hazards. |
| <b>Skin contact</b> | : No known significant effects or critical hazards. |
| <b>Eye contact</b>  | : Causes serious eye irritation.                    |

### Over-exposure signs/symptoms

|                   |                     |
|-------------------|---------------------|
| <b>Inhalation</b> | : No specific data. |
| <b>Ingestion</b>  | : No specific data. |

## Section 11. Toxicological information

|                     |                                                                                            |
|---------------------|--------------------------------------------------------------------------------------------|
| <b>Skin contact</b> | : No specific data.                                                                        |
| <b>Eye contact</b>  | : Adverse symptoms may include the following:<br>pain or irritation<br>watering<br>redness |

### B. Health hazards

#### Acute toxicity

**Conclusion/Summary [Product]** : Not available.

#### Skin corrosion/irritation

Not available.

**Conclusion/Summary [Product]** : Neutralisation product: Equilibrium of Ionic Pairs according to REACH Annex V, 4.

#### Serious eye damage/eye irritation

Not available.

**Conclusion/Summary [Product]** : Neutralisation product: Equilibrium of Ionic Pairs according to REACH Annex V, 4.

#### Respiratory corrosion/irritation

Not available.

**Conclusion/Summary [Product]** : Not available.

#### Respiratory or skin sensitization

Not available.

#### Skin

**Conclusion/Summary [Product]** : Not available.

#### Respiratory

**Conclusion/Summary [Product]** : Not available.

## Section 11. Toxicological information

### CMR - ISHA Article 42 Occupational Exposure Limits

Not available.

### Germ cell mutagenicity

Not available.

**Conclusion/Summary [Product]** : Not available.

### Carcinogenicity

Not available.

**Conclusion/Summary [Product]** : Not available.

### Reproductive toxicity

Not available.

**Conclusion/Summary [Product]** : Not available.

### Specific target organ toxicity (single exposure)

Not available.

### Specific target organ toxicity (repeated exposure)

Not available.

### Aspiration hazard

Not available.

### Potential chronic health effects

Not available.

**Conclusion/Summary [Product]** : Not available.

**General** : No known significant effects or critical hazards.

**Carcinogenicity** : No known significant effects or critical hazards.

**Mutagenicity** : No known significant effects or critical hazards.

**Reproductive toxicity** : No known significant effects or critical hazards.

### Numerical measures of toxicity

#### Acute toxicity estimates

| Product/ingredient name                                    | Oral (mg/kg) | Dermal (mg/kg) | Inhalation (gases) (ppm) | Inhalation (vapors) (mg/l) | Inhalation (dusts and mists) (mg/l) |
|------------------------------------------------------------|--------------|----------------|--------------------------|----------------------------|-------------------------------------|
| Additive M30                                               | N/A          | N/A            | N/A                      | N/A                        | 48.0                                |
| 2,2'-(methylimino)diethanol                                | 4780         | 2500           | N/A                      | N/A                        | N/A                                 |
| Fatty acids, tall-oil, reaction products with acrylic acid | 6176         | N/A            | N/A                      | N/A                        | N/A                                 |

| (Z)-N-methyl-N-(1-oxo-9-octadecenyl)glycine                | N/A          | N/A            | N/A                      | N/A                        | 1.5                                 |

## Section 12. Ecological information

### A. Ecotoxicity

#### Product/ingredient name

Phosphoric acid, C11-14-isoalkyl esters, C13-rich

#### Result

##### EC50

Algae - Algae  
150 mg/l [72 hours]

##### EC50

Daphnia - Daphnia  
6.3 mg/l [48 hours]

##### LC50

Fish  
24 mg/l [96 hours]

##### NOEC

Algae - Algae  
110 mg/l

Poly(oxy-1,2-ethanediyl),  $\alpha$ -phenyl- $\omega$ -hydroxy-, phosphate

##### LC50

Fish  
>100 mg/l [96 hours]

(Z)-N-methyl-N-(1-oxo-9-octadecenyl)glycine

##### LC50

Fish  
1 to 10 mg/l [96 hours]

**Conclusion/Summary [Product]** : Not available.

### B. Persistence and degradability

Not available.

**Conclusion/Summary [Product]** : Not available.

| Product/ingredient name                     | Aquatic half-life | Photolysis      | Biodegradability |
|---------------------------------------------|-------------------|-----------------|------------------|
| (Z)-N-methyl-N-(1-oxo-9-octadecenyl)glycine | -                 | 85%; <28 day(s) | Readily          |

### C. Bioaccumulative potential

| Product/ingredient name                     | LogP <sub>ow</sub> | BCF | Potential |
|---------------------------------------------|--------------------|-----|-----------|
| 2,2'-(methylimino)diethanol                 | -1.08              | -   | Low       |
| (Z)-N-methyl-N-(1-oxo-9-octadecenyl)glycine | 3.5 to 4.2         | -   | Low       |

### D. Mobility in soil

**Soil/Water partition coefficient** : Not available.

### E. Other adverse effects

No known significant effects or critical hazards.

## Section 13. Disposal considerations

### A. Disposal methods

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.

## Section 13. Disposal considerations

**B. Disposal precautions** : This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

## Section 14. Transport information

|                                      | UN             | IMDG           | IATA           |
|--------------------------------------|----------------|----------------|----------------|
| <b>A. UN number</b>                  | Not regulated. | Not regulated. | Not regulated. |
| <b>B. UN proper shipping name</b>    | Not regulated. | Not regulated. | Not regulated. |
| <b>C. Transport hazard class(es)</b> | Not regulated. | Not regulated. | Not regulated. |
| <b>D. Packing group</b>              | Not regulated. | Not regulated. | Not regulated. |
| <b>E. Environmental hazards</b>      | No.            | No.            | No.            |

**F. Special precautions for user** : **Transport within user's premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

**Transport in bulk according to IMO instruments** : Not available.

## Section 15. Regulatory information

### A. Regulation according to ISHA

**ISHA article 117 (Harmful substances prohibited from manufacture)** : None of the components are listed.

**ISHA article 118 (Harmful substances requiring permission)** : None of the components are listed.

**Article 2 of Youth Protection Act on Substances Hazardous to Youth** : Not applicable.

### Exposure Limits of Chemical Substances and Physical Factors

None of the components have an OEL.

**ISHA Enforcement Regs Annex 19 (Exposure standards established for harmful factors)** : None of the components are listed.

**ISHA Enforcement Regs Annex 21 (Harmful factors subject to Work Environment Measurement)** : None of the components are listed.

## Section 15. Regulatory information

**ISHA Enforcement Regs** : None of the components are listed.

**Annex 22 (Harmful Factors Subject to Special Health Check-up)**

**Standard of Industrial Safety and Health** : None of the components are listed.

**Annex 12 (Hazardous substances subject to control)**

### B. Regulation according to Chemicals Control Act

**Article 11 (TRI)** : None of the components are listed.

**Article 18 Prohibited (K-Reach Article 27)** : None of the components are listed.

**Article 19 Candidate substances subject to authorization (K-Reach Article 25)** : None of the components are listed.

**Article 19 Subject to authorization (K-Reach Article 25)** : None of the components are listed.

**Article 20 Toxic Chemicals (K-Reach Article 20)** : Not applicable

**Article 20 Restricted (K-Reach Article 27)** : None of the components are listed.

**Article 39 (Accident Precaution Chemicals)**

Not listed.

**MoE 2021-51 - Regulations on the quantity of toxic substances, restricted substances, prohibited substances and permitted substances**

Not listed.

**Existing Chemical Substances Subject to Registration** : None of the components are listed.

### C. **Dangerous Materials Safety Management Act** : Not applicable.

### D. **Wastes regulation** : Dispose of contents and container in accordance with all local, regional, national and international regulations.

### E. Regulation according to other foreign laws

#### International regulations

##### Chemical Weapon Convention List Schedules I, II & III Chemicals

| List name                                        | Ingredient name             | Status |
|--------------------------------------------------|-----------------------------|--------|
| <input checked="" type="checkbox"/> Schedule III | 2,2'-(methylimino)diethanol | Listed |

##### Montreal Protocol

Not listed.

##### Rotterdam Convention on Prior Informed Consent (PIC)

Not listed.

##### UNECE Aarhus Protocol on POPs and Heavy Metals

## Section 15. Regulatory information

Not listed.

### Inventory list

**Republic of Korea** : Not determined.

## Section 16. Other information

- A. References** : - Registry of Toxic Effects of Chemical Substances  
- United States Environmental Protection Agency ECOTOX
- B. Date of issue/Date of revision** : 2026년03월13일
- C. Version** : 1.04  
**Date of printing** : 2026년03월13일  
**Prepared by** : Product Stewardship Blaser Swisslube AG
- D. Other**

Indicates information that has changed from previously issued version.

**Key to abbreviations** : ATE = Acute Toxicity Estimate  
BCF = Bioconcentration Factor  
GHS = Globally Harmonized System of Classification and Labelling of Chemicals  
IATA = International Air Transport Association  
IBC = Intermediate Bulk Container  
IMDG = International Maritime Dangerous Goods  
LogPow = logarithm of the octanol/water partition coefficient  
MARPOL = International Convention for the Prevention of Pollution From Ships, 1973 as modified by the Protocol of 1978. ("Marpol" = marine pollution)  
N/A = Not available  
SGG = Segregation Group  
UN = United Nations
