## **SAFETY DATA SHEET**

Vascomill 10

# Section 1. Identification of the substance/mixture and of the company/undertaking

Product identifier	: Vascomill 10
Article No.	: 02903-06
Other means of identification	: Not available.
Product type	: Liquid.

#### Relevant identified uses of the substance or mixture and uses advised against

Identified uses	
Industrial use only. Metal working fluids	
Uses advised against	
Consumer use.	

Manufacturer	:	BLASER SWISSLUBE AG Winterseistrasse 22 CH-3415 Hasle-Rüegsau Switzerland
		Tel:+41 (0)34 460 01 01 E-Mail: contact@blaser.com
Supplier's details	:	Hi-Tech Machine Tools (Pty) Ltd 16 Nguni Drive ,Longmeadow West Modderfontein,1609 South Africa Tel:+27 (0) 11 608 0088 E-Mail: info@hitech.co.za
e-mail address of person responsible for this SDS	:	reach@blaser.com
Emergency telephone number (with hours of operation)	:	+27 21 300 2732 (24h/7d)

## Section 2. Hazards identification

Classification of the substance or mixture	: Not classified.
	Percentage of the mixture consisting of ingredient(s) of unknown hazards to the aquatic environment: 5%
GHS label elements	
Signal word	: 🕅 o signal word.
Hazard statements	: No known significant effects or critical hazards.
Precautionary statements	
Prevention	: Not applicable.
Response	: Not applicable.
Storage	: Not applicable.
Date of issue/Date of revision	: 17. Sep 2024 Date of previous issue : 27. Apr 2024 Version : 2.03 1/5

## Section 2. Hazards identification

Disposal

: Not applicable.

Other hazards which do not : Mone known. result in classification

## Section 3. Composition/information on ingredients

Substance/mixture	:	ľ
Other means of	:	ľ
identification		

Mixture

: Not available.

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

## Section 4. First aid measures

#### Description of necessary first aid measures

Eye contact	Emmediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
Inhalation	: Kvoid breathing vapor or mist. Get medical attention if symptoms occur.
Skin contact	<ul> <li>Fush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.</li> </ul>
Ingestion	: Wash out mouth with water. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

#### Most important symptoms/effects, acute and delayed

Potential acute health effec	ts		
Eye contact	: No known significant effects or critical hazards.		
Inhalation	: No known significant effects or critical hazards.		
Skin contact	: No known significant effects or critical hazards.		
Ingestion	: No known significant effects or critical hazards.		
Over-exposure signs/symptoms			
Eye contact	: 📈 specific data.		
Inhalation	: No specific data.		
Skin contact	: No specific data.		
Ingestion	: No specific data.		

#### Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician	: <b>F</b> reat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Specific treatments Protection of first-aiders	: №o specific treatment. : №o action shall be taken involving any personal risk or without suitable training.

#### See toxicological information (Section 11)

2/9

## Section 5. Firefighting measures

Extinguishing media		
Suitable extinguishing media	:	$ ot\!$
Unsuitable extinguishing media	:	None known.
Specific hazards arising from the chemical	:	n a fire or if heated, a pressure increase will occur and the container may burst.
Hazardous thermal decomposition products	:	Decomposition products may include the following materials: carbon dioxide carbon monoxide
Special protective actions for fire-fighters	:	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
Special protective equipment for fire-fighters	:	Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

## Section 6. Accidental release measures

Personal precautions, protec	uipment and emergency procedures	
For non-emergency personnel	action shall be taken involving any personal risk or without suitabl cuate surrounding areas. Keep unnecessary and unprotected pe rring. Do not touch or walk through spilled material. Put on appro ective equipment.	ersonnel from
For emergency responders	pecialized clothing is required to deal with the spillage, take note c rmation in Section 8 on suitable and unsuitable materials. See al rmation in "For non-emergency personnel".	
Environmental precautions	id dispersal of spilled material and runoff and contact with soil, wans and sewers. Inform the relevant authorities if the product has ronmental pollution (sewers, waterways, soil or air).	
Methods and materials for co	<u>ent and cleaning up</u>	
Small spill	b leak if without risk. Move containers from spill area. Dilute with water-soluble. Alternatively, or if water-insoluble, absorb with ar erial and place in an appropriate waste disposal container. Disponsed waste disposal contractor.	n inert dry
Large spill	b leak if without risk. Move containers from spill area. Prevent er er courses, basements or confined areas. Wash spillages into ar tment plant or proceed as follows. Dispose of via a licensed was tractor. Contain and collect spillage with non-combustible, absorb and, earth, vermiculite or diatomaceous earth and place in contai ording to local regulations.	n effluent te disposal pent material e.

## Section 7. Handling and storage

# Precautions for safe handling Protective measures Advice on general occupational hygiene Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

## Section 7. Handling and storage

Conditions for safe storage,	: Store between the following temperatures: -10 to 40°C (14 to 104°F). Shelf life: 36
including any	months. Store in accordance with local regulations. Store in original container
incompatibilities	protected from direct sunlight in a dry, cool and well-ventilated area, away from
-	incompatible materials (see Section 10) and food and drink. Keep container tightly
	closed and sealed until ready for use. Containers that have been opened must be
	carefully resealed and kept upright to prevent leakage. Do not store in unlabeled
	containers. Use appropriate containment to avoid environmental contamination.
	See Section 10 for incompatible materials before handling or use.

## Section 8. Exposure controls/personal protection

Control parameters	
Occupational exposure limits	
None.	
Biological exposure indices	
No exposure indices known.	
Appropriate engineering controls	Sood general ventilation should be sufficient to control worker exposure to airborne contaminants.
Environmental exposure controls	Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.
Individual protection measure	
Hygiene measures	Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
Eye/face protection	Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.
Skin protection	
Hand protection	Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.
Body protection	Personal protective equipment for the body should be selected based on the task being performed and the risks involved before handling this product.
Other skin protection	Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved before handling this product.
Respiratory protection	Frespirator is not needed under normal and intended conditions of product use. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators.

## Section 9. Physical and chemical properties

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

Appearance	
Physical state	: Liquid.
Color	: Light brown.
Odor	: Characteristic.

Date of issue/Date of revision

4/9

## Section 9. Physical and chemical properties

	• •
Odor threshold	: Not available.
рН	: Not applicable.
Melting point/freezing point	: Not available.
Pour point	: -48°C (-54.4°F)
Boiling point or initial boiling point and boiling range	: Not available.
Flash point	: Open cup: 202°C (395.6°F)
Flammability	: Not available.
Lower and upper explosion limit/flammability limit	: Not available.
Vapor pressure	: Not available.
Relative vapor density	: Not available.
Relative density	: Not available.
Density	: 0.9 g/cm³ [20°C (68°F)]
Solubility in water	: Not available.
Miscible with water	: No.
Partition coefficient: n- octanol/water	: Not applicable.
Auto-ignition temperature	: Not available.
Decomposition temperature	: Not available.
Viscosity	: Dynamic (room temperature): Not available. Kinematic (room temperature): Not available. Kinematic (40°C (104°F)): 10 mm²/s (10 cSt)
Particle characteristics	

Median particle size

: Not applicable.

## Section 10. Stability and reactivity

Reactivity	: No specific test data related to reactivity available for this product or its ingredients.
Chemical stability	: Shelf life: 36 months.
Possibility of hazardous reactions	: Inder normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid	: No specific data.
Incompatible materials	: No specific data.
Hazardous decomposition products	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.
	Release of flammable substances in distillation systems with solvent recovery possible. Risk of accumulation in the solvent circuit. Formation of trimethyl pentene possible. Formation of hydrogen sulfide possible.

6/9

## Section 11. Toxicological information

#### Information on toxicological effects

#### Acute toxicity

Not available.

#### Irritation/Corrosion

Not available.

#### **Respiratory or skin sensitization**

Not available.

#### **Mutagenicity**

Not available.

#### **Carcinogenicity**

Not available.

#### Reproductive toxicity

Not available.

#### **Teratogenicity**

Not available.

#### Specific target organ toxicity (single exposure)

Not available.

#### <u>Specific target organ toxicity (repeated exposure)</u> Not available.

#### Aspiration hazard

Not available.

#### Information on the likely : Not available. routes of exposure Potential acute health effects

al hazards.
al hazards.
al hazards.
al hazards.

#### Symptoms related to the physical, chemical and toxicological characteristics

Eye contact	: 📈 specific data.
Inhalation	: 📈 specific data.
Skin contact	: 📈 specific data.
Ingestion	: 📈 specific data.

#### Delayed and immediate effects and also chronic effects from short and long term exposure Short term exposure

Date of issue/Date of revision	: 17. Sep 2024 Date of previous issue	: 27. Apr 2024	Version : 2.03
Potential delayed effects	: Not available.		
Potential immediate effects	: Not available.		
Long term exposure			
Potential delayed effects	: Not available.		
Potential immediate effects	: Not available.		
Short term exposure			

## Section 11. Toxicological information

#### Potential chronic health effects

#### Not available.

**Mutagenicity** 

General	: No known significant effects or critical hazards.
Carcinogenicity	: No known significant effects or critical hazards.

- : No known significant effects or critical hazards.
  - : No known significant effects or critical hazards.
- : No known significant effects or critical hazards.

#### Numerical measures of toxicity

Acute toxicity estimates

**Reproductive toxicity** 

N/A

## Section 12. Ecological information

#### **Toxicity**

Not available.

#### Persistence and degradability

Not available.

#### **Bioaccumulative potential**

Not available.

#### **Mobility in soil**

Soil/water partition : Not available. coefficient (Koc)

Other adverse effects : No known significant effects or critical hazards.

### Section 13. Disposal considerations

Disposal methods	: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact
	with soil, waterways, drains and sewers.

## Section 14. Transport information

7/9

## Section 14. Transport information

	UN	IMDG	ΙΑΤΑ
UN number	Not regulated.	Not regulated.	Not regulated.
UN proper shipping name	-	-	-
Transport hazard class(es)	-	-	-
Packing group	-	-	-
Environmental hazards	No.	No.	No.

# Special precautions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not available. to IMO instruments

## Section 15. Regulatory information

#### International regulations

Chemical Weapon Convention List Schedules I, II & III Chemicals

Not listed.

#### **Montreal Protocol**

Not listed.

#### Stockholm Convention on Persistent Organic Pollutants

Not listed.

#### Rotterdam Convention on Prior Informed Consent (PIC)

Not listed.

#### **UNECE Aarhus Protocol on POPs and Heavy Metals**

Not listed.
