

# SAFETY DATA SHEET

Foodgrease SPM 00

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** : Foodgrease SPM 00  
**Article No.** : 00721-01  
**Product description** : Industrial use only.  
Lubricants, greases, release products

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

| Identified uses                                               |
|---------------------------------------------------------------|
| Industrial use only.<br>Lubricants, greases, release products |
| Uses advised against                                          |
| Consumer use.                                                 |

### 1.3 Details of the supplier of the safety data sheet

**Manufacturer** : BLASER SWISSLUBE AG  
Winterseistrasse 22  
CH-3415 Hasle-Rüegsau  
Switzerland  
Tel: +41 (0)34 460 01 01  
E-Mail: [contact@blaser.com](mailto:contact@blaser.com)

**e-mail address of person responsible for this SDS** : [reach@blaser.com](mailto:reach@blaser.com)

### 1.4 Emergency telephone number

#### National advisory body/Poison Centre

**Telephone number** : 145 (from abroad: +41 44 251 51 51)  
Information: +41 44 251 66 66

## SECTION 2: Hazards identification

### 2.1 Classification of the substance or mixture

**Product definition** : Mixture

#### Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]

Aquatic Chronic 3, H412

The product is classified as hazardous according to Regulation (EC) 1272/2008 as amended.  
See Section 16 for the full text of the H statements declared above.  
See Section 11 for more detailed information on health effects and symptoms.

### 2.2 Label elements

**Signal word** : No signal word.  
**Hazard statements** : H412 - Harmful to aquatic life with long lasting effects.  
**Precautionary statements**  
**Prevention** : P273 - Avoid release to the environment.

Foodgrease SPM 00

SECTION 2: Hazards identification

|                                                                                                                                    |                                                                                                                            |
|------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------|
| Disposal                                                                                                                           | : P501 - Dispose of contents and container in accordance with all local, regional, national and international regulations. |
| Supplemental label elements                                                                                                        | : Not applicable.                                                                                                          |
| Annex XVII - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles | : Not applicable.                                                                                                          |
| 2.3 Other hazards                                                                                                                  |                                                                                                                            |
| Product meets the criteria for PBT or vPvB according to Regulation (EC) No. 1907/2006, Annex XIII                                  | : This mixture contains substances that are assessed to be a PBT or a vPvB, refer to Section 3.2.                          |
| Other hazards which do not result in classification                                                                                | : None known.                                                                                                              |

SECTION 3: Composition/information on ingredients

3.2 Mixtures : Mixture

| Product/ingredient name                                                            | Identifiers                                                      | %    | Classification                                                                                                    | Specific Conc. Limits, M-factors and ATEs                       | Type        |
|------------------------------------------------------------------------------------|------------------------------------------------------------------|------|-------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------|-------------|
| White mineral oil (petroleum)                                                      | REACH #:<br>01-2119487078-27<br>EC: 232-455-8<br>CAS: 8042-47-5  | ≤3   | Asp. Tox. 1, H304                                                                                                 | -                                                               | [1]         |
| disodium sebacate                                                                  | REACH #:<br>01-2120762063-61<br>EC: 241-300-3<br>CAS: 17265-14-4 | ≤3   | Eye Irrit. 2, H319                                                                                                | -                                                               | [1]         |

|--|--------------|--|----------------------------------------------------------------------------------------------------------------------------------------------------|-----------------|--|

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs, vPvBs or Substances of equivalent concern, or have been assigned a workplace exposure limit and hence require reporting in this section.

#### Type

- ☒ [1] Substance classified with a health or environmental hazard
- ☐ [2] Substance with a workplace exposure limit
- ☐ [3] Substance meets the criteria for PBT according to Regulation (EC) No. 1907/2006, Annex XIII

Occupational exposure limits, if available, are listed in Section 8.

### SECTION 4: First aid measures

#### 4.1 Description of first aid measures

- Eye contact** : ☒ Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Continue to rinse for at least 10 minutes. Check for and remove any contact lenses. Get medical attention if irritation occurs.
- Inhalation** : ☒ Avoid breathing vapour or mist. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention if adverse health effects persist or are severe. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. Remove victim to fresh air and keep at rest in a position comfortable for breathing.
- Skin contact** : Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
- Ingestion** : ☒ Wash out mouth with water. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel.
- Protection of first-aiders** : No action shall be taken involving any personal risk or without suitable training.

#### 4.2 Most important symptoms and effects, both acute and delayed

##### Over-exposure signs/symptoms

- Eye contact** : No specific data.
- Inhalation** : No specific data.
- Skin contact** : No specific data.
- Ingestion** : No specific data.

#### 4.3 Indication of any immediate medical attention and special treatment needed

- Notes to physician** : Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
- Specific treatments** : No specific treatment.

## SECTION 5: Firefighting measures

### 5.1 Extinguishing media

**Suitable extinguishing media** : Use an extinguishing agent suitable for the surrounding fire.

**Unsuitable extinguishing media** : None known.

### 5.2 Special hazards arising from the substance or mixture

**Hazards from the substance or mixture** :  In a fire or if heated, a pressure increase will occur and the container may burst. This material is harmful to aquatic life with long lasting effects. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain.

**Hazardous combustion products** : Decomposition products may include the following materials:  
carbon dioxide  
carbon monoxide  
metal oxide/oxides

### 5.3 Advice for firefighters

**Special protective actions for fire-fighters** : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

**Special protective equipment for fire-fighters** : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents.

## SECTION 6: Accidental release measures

### 6.1 Personal precautions, protective equipment and emergency procedures

**For non-emergency personnel** : No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Put on appropriate personal protective equipment.

**For emergency responders** : If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

### 6.2 Environmental precautions

:  Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large quantities.

### 6.3 Methods and material for containment and cleaning up

**Small spill** :  Stop leak if without risk. Move containers from spill area. Absorb with an inert material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

**Large spill** :  Stop leak if without risk. Move containers from spill area. Approach the release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilt product. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations.

Foodgrease SPM 00

SECTION 6: Accidental release measures

**6.4 Reference to other sections** : See Section 1 for emergency contact information.  
See Section 8 for information on appropriate personal protective equipment.  
See Section 13 for additional waste treatment information.

SECTION 7: Handling and storage

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

7.1 Precautions for safe handling

**Protective measures** : Put on appropriate personal protective equipment (see Section 8). Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapour or mist. Avoid release to the environment. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.

**Advice on general occupational hygiene** : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

7.2 Conditions for safe storage, including any incompatibilities

Store between the following temperatures: 0 to 40°C (32 to 104°F). Shelf life: 36 months. Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

7.3 Specific end use(s)

**Recommendations** : Not available.

**Industrial sector specific solutions** : Not available.

SECTION 8: Exposure controls/personal protection

The information in this section contains generic advice and guidance. Information is provided based on typical anticipated uses of the product. Additional measures might be required for bulk handling or other uses that could significantly increase worker exposure or environmental releases.

8.1 Control parameters

Occupational exposure limits

| Product/ingredient name                                                                                                      | Exposure limit values                                                                                                                           |
|------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------|
|  -N-methyl-N-(1-oxo-9-octadecenyl)glycine | <b>SUVA (Switzerland, 1/2023)</b><br>TWA 8 hours: 0.1 mg/m³. Form: Inhalable fraction.<br>STEL 15 minutes: 0.2 mg/m³. Form: Inhalable fraction. |
| O,O,O-triphenyl phosphorothioate                                                                                             | <b>SUVA (Switzerland, 1/2023)</b><br>STEL 15 minutes: 40 mg/m³. Form: Inhalable fraction.<br>TWA 8 hours: 10 mg/m³. Form: Inhalable fraction.   |

Biological exposure indices

No exposure indices known.

**Recommended monitoring procedures** : Reference should be made to monitoring standards, such as the following:  
European Standard EN 689 (Workplace atmospheres - Guidance for the assessment of exposure by inhalation to chemical agents for comparison with limit values and measurement strategy) European Standard EN 14042 (Workplace atmospheres - Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents) European Standard EN 482 (Workplace atmospheres - General requirements for the performance of procedures

## SECTION 8: Exposure controls/personal protection

for the measurement of chemical agents) Reference to national guidance documents for methods for the determination of hazardous substances will also be required.

### DNELs/DMELs

Not available.

### PNECs

Not available.

## 8.2 Exposure controls

**Appropriate engineering controls** : Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

### Individual protection measures

**Hygiene measures** : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

**Eye/face protection** : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.

### Skin protection

**Hand protection** : ☒ Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated. Wear suitable gloves tested to EN374. Nitrile gloves. thickness 0.3 mm (minimum) .

**Body protection** : Personal protective equipment for the body should be selected based on the task being performed and the risks involved before handling this product.

**Other skin protection** : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved before handling this product.

**Respiratory protection** : A respirator is not needed under normal and intended conditions of product use. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators.

**Environmental exposure controls** : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

## SECTION 9: Physical and chemical properties

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

### 9.1 Information on basic physical and chemical properties

#### Appearance

**Physical state** : Liquid.  
**Colour** : Beige.  
**Odour** : Characteristic.

## SECTION 9: Physical and chemical properties

|                                                                 |                                                                                                                                  |

SECTION 11: Toxicological information

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

Acute toxicity

Product/ingredient name

White mineral oil (petroleum)

Result

Rat - Oral - LD50  
>5000 mg/kg

Rabbit - Dermal - LD50  
>2000 mg/kg

disodium sebacate

Rat - Oral - LD50  
>5000 mg/kg

Rat - Dermal - LD50  
>2000 mg/kg

Benzenamine, N-phenyl-, reaction products with 2,4,4-trimethylpentene

Rat - Dermal - LD50  
>5000 mg/kg

Rat - Oral - LD50  
>5000 mg/kg

reaction mass of: triphenylthiophosphate and tertiary butylated phenyl derivatives

Rat - Oral - LD50  
>2000 mg/kg  
TEPA and OECD

Rat - Dermal - LD50  
>2000 mg/kg

(Z)-N-methyl-N-(1-oxo-9-octadecenyl)glycine

Rat - Inhalation - LC50 Dusts and mists  
1.37 mg/l [4 hours]

O,O,O-triphenyl phosphorothioate

Rat - Oral - LD50  
>10000 mg/kg

Rat - Dermal - LD50  
>2000 mg/kg

2-(2-heptadec-8-enyl-2-imidazolin-1-yl) ethanol

Rat - Oral - LD50  
1.265 mg/kg

Conclusion/Summary [Product] : Not available.

Acute toxicity estimates

| Product/ingredient name                        | Oral (mg/kg) | Dermal (mg/kg) | Inhalation (gases) (ppm) | Inhalation (vapours) (mg/l) | Inhalation (dusts and mists) (mg/l) |
|------------------------------------------------|--------------|----------------|--------------------------|-----------------------------|-------------------------------------|
| (Z)-N-methyl-N-(1-oxo-9-octadecenyl)glycine    | N/A          | N/A            | N/A                      | N/A                         | 1.37                                |
| 2-(2-heptadec-8-enyl-2-imidazolin-1-yl)ethanol | 500          | N/A            | N/A                      | N/A                         | N/A                                 |

Skin corrosion/irritation

Not available.

Conclusion/Summary [Product] : Not available.

Serious eye damage/eye irritation

Not available.

Conclusion/Summary [Product] : Not available.

Specific target organ toxicity (single exposure)

Not available.

Specific target organ toxicity (repeated exposure)

| Product/ingredient name                         | Result          |
|-------------------------------------------------|-----------------|
| 2-(2-heptadec-8-enyl-2-imidazolin-1-yl) ethanol | STOT RE 2, H373 |

Aspiration hazard

| Product/ingredient name       | Result                         |
|-------------------------------|--------------------------------|
| White mineral oil (petroleum) | ASPIRATION HAZARD - Category 1 |

Information on likely routes of exposure

Not available.

Potential acute health effects

|              |                                                     |
|--------------|-----------------------------------------------------|
| Eye contact  | : No known significant effects or critical hazards. |
| Inhalation   | : No known significant effects or critical hazards. |
| Skin contact | : No known significant effects or critical hazards. |
| Ingestion    | : No known significant effects or critical hazards. |

Symptoms related to the physical, chemical and toxicological characteristics

## SECTION 11: Toxicological information

**Eye contact** : No specific data.

**Inhalation** : No specific data.

**Skin contact** : No specific data.

**Ingestion** : No specific data.

### Delayed and immediate effects as well as chronic effects from short and long-term exposure

#### Short term exposure

**Potential immediate effects** : Not available.

**Potential delayed effects** : Not available.

#### Long term exposure

**Potential immediate effects** : Not available.

**Potential delayed effects** : Not available.

### Potential chronic health effects

Not available.

**Conclusion/Summary [Product]** : Not available.

**General** : No known significant effects or critical hazards.

**Carcinogenicity** : No known significant effects or critical hazards.

**Mutagenicity** : No known significant effects or critical hazards.

**Reproductive toxicity** : No known significant effects or critical hazards.

## 11.2 Information on other hazards

### 11.2.1 Endocrine disrupting properties

Not available.

**Conclusion/Summary [Product]** : The product does not meet the criteria to be considered as having endocrine disrupting properties according to the criteria set out in either Regulation (EC) No. 1907/2006 or Regulation (EC) No 1272/2008.

### 11.2.2 Other information

Not available.

## SECTION 12: Ecological information

### 12.1 Toxicity

#### **Product/ingredient name**

Reaction mass of: triphenylthiophosphate and tertiary butylated phenyl derivatives

#### **Result**

##### **Acute - LC50**

Fish  
>100 mg/l [96 hours]

##### **Acute - EC50**

Daphnia  
>100 mg/l [48 hours]

##### **Acute - NOEC**

Aquatic plants  
>100 mg/l [72 hours]

##### **Acute - EC50**

Aquatic plants  
>100 mg/l [72 hours]

##### **Chronic - NOEC**

Daphnia  
5.5 mg/l [21 days]

(Z)-N-methyl-N-(1-oxo-9-octadecenyl)glycine

##### **Acute - LC50**

Fish

**Conclusion/Summary Regulation (EC) No. 1272/2008 [CLP]** : The product does not meet the criteria to be considered as a PBT or vPvB.

12.6 Endocrine disrupting properties

Not available.

**Conclusion/Summary [Product]** : The product does not meet the criteria to be considered as having endocrine disrupting properties according to the criteria set out in either Regulation (EC) No. 1907/2006 or Regulation (EC) No 1272/2008.

12.7 Other adverse effects

No known significant effects or critical hazards.

SECTION 13: Disposal considerations

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

13.1 Waste treatment methods

Product

**Methods of disposal** : The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction.

**Hazardous waste** : Yes.

European waste catalogue (EWC)

| Waste code | Waste designation    |
|------------|----------------------|
| 12 01 12*  | spent waxes and fats |

Packaging

**Methods of disposal** : The generation of waste should be avoided or minimised wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.

**Special precautions** : This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

| 14.5 Environmental hazards      | No. | Yes. | No. | No. |

Additional information

- ADN : The product is only regulated as a dangerous good when transported in tank vessels.
- 14.6 Special precautions for user : **Transport within user's premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.
- 14.7 Maritime transport in bulk according to IMO instruments : Not available.

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture  
EU Regulation (EC) No. 1907/2006 (REACH)

Annex XIV - List of substances subject to authorisation  
Annex XIV

None of the components are listed above the relevant limit.

Substances of very high concern

| Intrinsic property                                                                      | Ingredient name                                                                                                        | Status    | Reference number | Date of revision |
|-----------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------|-----------|------------------|------------------|

|                                                                                         |                                                                                                                        | Candidate | -                | -                |

Annex XVII - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles

| Product/ingredient name                                                                               | %   | Designation [Usage] |
|-------------------------------------------------------------------------------------------------------|-----|---------------------|
|  Foodgrease SPM 00 | ≥90 | 3                   |

Labelling : Not applicable.

Other EU regulations

- Industrial emissions (integrated pollution prevention and control) - Air : Not listed
- Industrial emissions (integrated pollution prevention and control) - Water : Not listed
- Explosive precursors : Not applicable.
- Ozone depleting substances (EU 2024/590)  
Not listed.

## SECTION 15: Regulatory information

### Prior Informed Consent (PIC) (649/2012/EU)

Not listed.

### Persistent Organic Pollutants

Not listed.

### Seveso Directive

This product is not controlled under the Seveso Directive.

### National regulations

Storage class (TRGS 510) : 12

VOC content : Exempt.

SZID : 566776-83

Hazardous liquids for water : Class A

### International regulations

#### Chemical Weapon Convention List Schedules I, II & III Chemicals

Not listed.

#### Montreal Protocol

Not listed.

#### Stockholm Convention on Persistent Organic Pollutants

Not listed.

#### Rotterdam Convention on Prior Informed Consent (PIC)

Not listed.

#### UNECE Aarhus Protocol on POPs and Heavy Metals

Not listed.

### 15.2 Chemical safety assessment

: This product contains substances for which Chemical Safety Assessments are still required.

## SECTION 16: Other information

🔍 Indicates information that has changed from previously issued version.

### Abbreviations and acronyms

: ATE = Acute Toxicity Estimate  
CLP = Classification, Labelling and Packaging Regulation [Regulation (EC) No. 1272/2008]  
DMEL = Derived Minimal Effect Level  
DNEL = Derived No Effect Level  
EUH statement = CLP-specific Hazard statement  
N/A = Not available  
PBT = Persistent, Bioaccumulative and Toxic  
PNEC = Predicted No Effect Concentration  
RRN = REACH Registration Number  
SGG = Segregation Group  
vPvB = Very Persistent and Very Bioaccumulative

### Procedure used to derive the classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]

| Classification            | Justification      |
|---------------------------|--------------------|
| 🔍 Aquatic Chronic 3, H412 | Calculation method |

### Full text of abbreviated H statements

SECTION 16: Other information

|       |                                                                    |
|-------|--------------------------------------------------------------------|
| H302  | Harmful if swallowed.                                              |
| H304  | May be fatal if swallowed and enters airways.                      |
| H314  | Causes severe skin burns and eye damage.                           |
| H315  | Causes skin irritation.                                            |
| H318  | Causes serious eye damage.                                         |
| H319  | Causes serious eye irritation.                                     |
| H332  | Harmful if inhaled.                                                |
| H361  | Suspected of damaging fertility or the unborn child.               |
| H361f | Suspected of damaging fertility.                                   |
| H373  | May cause damage to organs through prolonged or repeated exposure. |
| H400  | Very toxic to aquatic life.                                        |
| H410  | Very toxic to aquatic life with long lasting effects.              |
| H412  | Harmful to aquatic life with long lasting effects.                 |
| H413  | May cause long lasting harmful effects to aquatic life.            |
